

Oceus Networks Receives a Mobility Tech Zone 2011 LTE Visionary Award

Xiphos™ Honored For Delivering Exceptional LTE Strategies

RESTON, Va. – January 12, 2012 – Oceus Networks announced today that Mobility Tech Zone has recognized *Xiphos™* as a recipient of the 2011 LTE Visionary Award.

Oceus Networks' *Xiphos* is a 4G LTE family of fully interoperable solutions that enable high-speed, high-capacity voice, video and data transmissions for military personnel and first responders. Ruggedized for extreme environments and situations, *Xiphos* systems provide turnkey, easily deployable broadband networks wherever traditional communication infrastructures are unavailable or compromised.

"Because it's based on 4G LTE technology, *Xiphos* provides ten times the networking capability than what was previously deployed by our customers," said Doug Smith, President and CEO, Oceus Networks. "For military and public safety professionals, this advancement in communications technology can literally mean saving lives. We're proud to serve our customers in this manner, and we will continue to innovate to bring the latest communications capabilities to this important market."

"Oceus Networks' achievements in advancing 4G through LTE development is worthy of being selected as recipient of the Mobility Tech Zone LTE Visionary Award," said Carl Ford, co-founder and community developer, Crossfire Media. "Oceus is an innovator and one to watch for the next evolution of solutions."

"It is a pleasure to bestow Oceus Networks with this award. Their contribution toward the future of mobile broadband is commendable," stated Rich Tehrani, CEO, TMC. "I look forward to more innovation from Oceus in the future."

The 2011 LTE Visionary Award winners are published on Mobility Tech Zone, the leading website dedicated to the mobile broadband industry, and in its e-newsletter.
